

# Hinged w/Gate Enclosure - 38x60x58 Green RGSE1022FG

## Details

The N Pattern enclosure is designed for angle pattern backflows but also works well covering pumps and other equipment. Large air-vacuum-relief valves easily fit inside these units for example. Mounting hardware included. Powder coated steel framework. Hinged with gate. Forest Green. Made in U.S.A.

- Designed for angle pattern backflow assemblies
- Powder coated steel framework
