

Sifter Scoop Poly Shovel

R2112

Details

A larger version of our Sifter Shovel, this durable, lightweight, poly shovel features a one-piece solid shaft design and deep capacity scoop with properly placed holes that maximize sifting. Ideal for sifting and removing rocks and debris from sand and soil when top dressing golf courses, after athletic field infield dragging, sifting mound clay on baseball/softball diamonds or screening unwanted material before seeding or sodding lawns and landscape areas. 14" x 17" (356mm x 432mm x 1070mm) head with 27" D-grip handle.
